Gafsa, Tunisia · Open to remote opportunities

EDUCATION

Higher Institute of Technological Studies of Gafsa (ISET Gafsa)

Gafsa, Tunisia

B.S. in Information Technology – Computer System Development

Sep 2023 – Jun 2026 (Expected)

- Relevant Coursework: Computer Networks, Operating Systems, Database Systems, Algorithms & Data Structures

PROFESSIONAL EXPERIENCE

Predictra – Subsidiary of Your Best Solution (Québec, Canada)

Remote

Full-Stack & Cyber Threat Intelligence Developer Intern

Jan 2026 – Jun 2026

- Built a real-time 3D cyber threat visualization platform (**React**, **TypeScript**, **Three.js**) rendering geolocated attack telemetry from multiple OSINT feeds on an interactive WebGL globe.
- Engineered a **Node.js** ingestion pipeline scraping and parsing **STIX 2.1** IOC feeds into **MongoDB**, mapping threat actors and TTPs to the **MITRE ATT&CK** framework for analyst correlation.
- Integrated **Socket.io** for live dashboard updates and **Cheerio**-based scrapers for enriching threat actor profiles from public intelligence sources.

Tunisian Regional Poste

Gafsa, Tunisia

Systems Administration & IT Support Intern

Jan 2025 – Feb 2025

- Supported LAN configuration and terminal maintenance across 30+ branch offices during a systems administration rotation.
- Wrote **PowerShell** scripts to automate daily backup verification and server health monitoring for the IT operations team.

EmpireCall Call Center

Regueb, Tunisia

IT Support & Systems Automation Intern

Jan 2024 – Feb 2024

- Configured VoIP softphone routing and CTI systems for 50+ outbound agents; wrote **SQL** queries to clean and filter CRM lead databases.

SELECTED PROJECTS

Distributed Honeypot & Threat Intel Collector | *Docker, Python, Flask, Paramiko*

- Built a multi-container honeypot system (**Docker Compose**) with low-interaction SSH and HTTP traps capturing attacker credentials, exploit payloads, and session metadata in real time.
- Developed a central **Flask** telemetry API aggregating intrusion reports from distributed nodes into a unified SQLite threat intelligence database with an interactive CLI dashboard.

Canary Token Generator & Breach Dashboard | *Python, Flask, SQLite, Chart.js*

- Created a canary token platform generating trackable HTTP links, MS Word pixel trackers, and decoy AWS Access Keys with a mock **AWS STS** endpoint returning realistic **AccessDenied** responses.
- Implemented **GeoIP** intruder fingerprinting and real-time webhook alerting to Slack, Discord, and Telegram on breach detection.

SecurDNS Firewall Resolver | *Python, dnslib, SQLite*

- Engineered a custom DNS firewall intercepting phishing and malware domains via real-time blocklist matching, sinkholes to 0.0.0.0, with auto-syncing blocklist ingestion and an interactive management CLI.

API Cartographer | *JavaScript, Chrome DevTools API, SVG | Chrome Extension*

- Developed a DevTools extension reverse-engineering backend API surfaces by intercepting fetch/XHR traffic and scanning scripts for undiscovered routes, with SVG network graphs and **OpenAPI v3** export.

FingerprintID | *React, TypeScript, Web Crypto API | Live Demo*

- Designed a browser fingerprinting analyzer generating unique **SHA-256** device identifiers via canvas, WebGL GPU probing, AudioContext synthesis, and font enumeration with a privacy score dashboard.

StegSafe | *Cryptography, HTML5 Canvas, Flask | Live Demo*

- Built a zero-knowledge steganography platform embedding encrypted messages in PNG images using browser-native **AES-256-GCM**, **LSB** pixel packing, and self-destructing burn-on-read links.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML/CSS, Bash, PowerShell, Java, C++

Frameworks & Libraries: React, Node.js, Express, Flask, Three.js, Vite, Socket.io, Mongoose, Cheerio, dnslib, Paramiko

Infrastructure & Tools: Docker, Docker Compose, Git, GitHub, MongoDB, SQLite, PostgreSQL, Linux, Postman, Vercel

Security & Protocols: STIX/TAXII, MITRE ATT&CK, AES-256-GCM, PBKDF2, Web Crypto API, DNS Protocol, LSB Steganography

LANGUAGES

Arabic (Native) · French (Fluent) · English (Professional Working Proficiency)
